03

Growth model and 2026 Outlook

Financial discipline supporting growth ambition

Maintain strong organic growth

Delivering volume-driven growth fueled by market share gains and constant operational excellence

Seize external growth opportunities

Investing in value-accretive businesses that complement and strengthen our core energy distribution activities

Uphold financial discipline

Combining strong returns, tight risk control and balance sheet discipline

Leveraging strong legacy positions to unlock new growth drivers

Fuel

Smaller positions in Europe

Strong business in the Caribbean and Africa

LPG

Growth opportunities in Africa, with resilient positions in the Caribbean

Leading business in Europe

Expanding our BtoC offer through strong service-station network in Africa and the Caribbean

Non-Fuel Retail

Driving value and differentiation by expanding high-margin non-fuel offerings (convenience stores, qsr, services)

Lubricants

Significant growth headroom in high-margin product segments – strong challenger position
(#3 of 4 in East Africa)

Renewables

First electrification projects in Jamaica and Kenya for C&I customers

Leading position in France, expanding to Europe

Renewables beyond Europe

In Africa and the Caribbean, supporting customers through the energy transition with tailored, territory-specific solutions

Bitumen

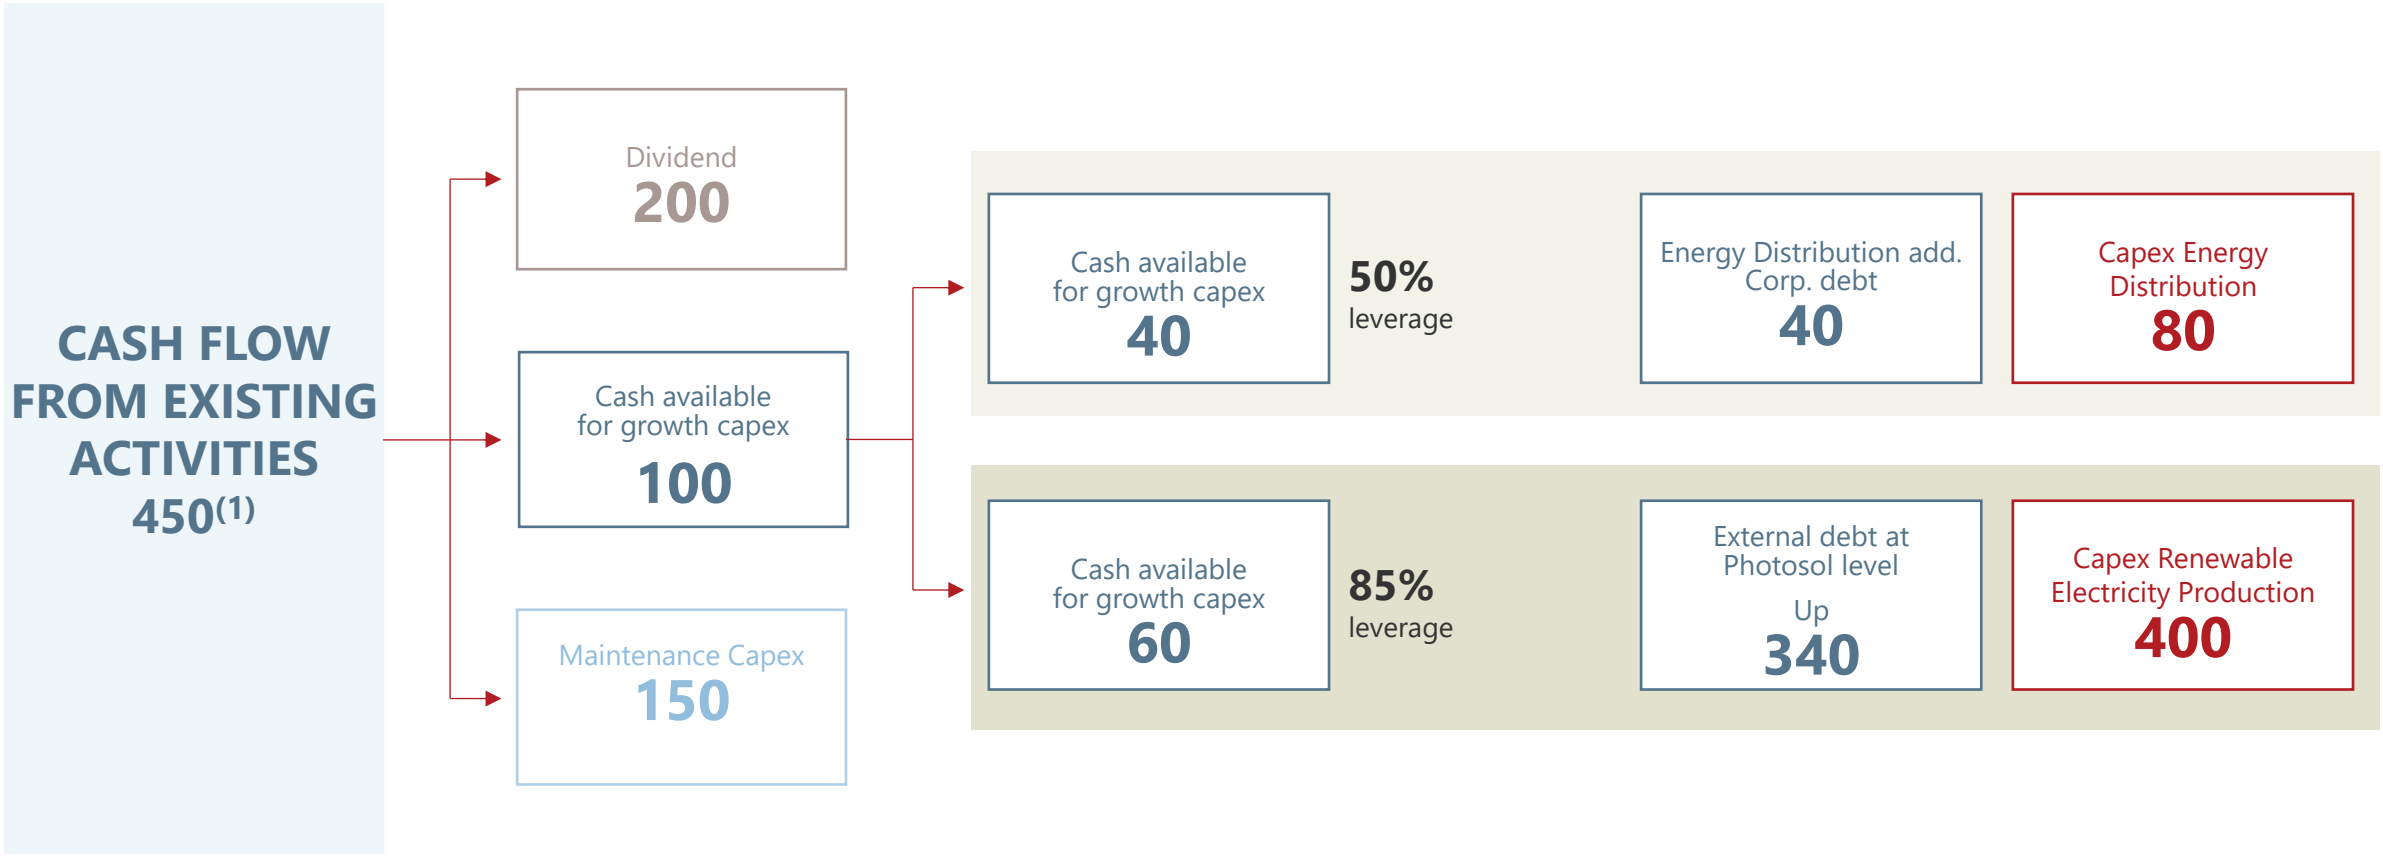

Positive dynamics in Africa, with expansion in Angola and Libya

Bitumen in Europe

Entering the European bitumen market with a long lease to operate strategic European bitumen storage capacities in Antwerp

Growth model

Solid free cash flow enabling both growth and dividend distribution

(1)Illustrative cash flow (in €m).
Cash flow may vary from one year to another, but is estimated at zero on a long-term basis.

A strict investment policy…

…. to ensure sustainable returns and transition

ENERGY DISTRIBUTION

- Bolt-on acquisitions in locations complementary to our existing network
- Opportunistic acquisitions with a short pay-back
- ~50% debt

RENEWABLE ELECTRICITY PRODUCTION

- Project IRR(1) [7-9]% unlevered
- Non-recourse debt financing [80-90]%
- European development
- Secured revenue over long periods (10-20 years)
- Small scale PV plants and Battery Energy Storage System (BESS)

BtoB solar development between Rubis Énergie and Photosol

Leverage Rubis Énergie geographical footprint for BtoB offers

(1) The Internal Rate of Return (IRR) is a financial indicator used to measure the profitability of an investment by taking into account all the cash flows it generates over its lifetime.

2026 Outlook

Renewed confidence in Group's ability to generate strong cash flow through the cycle

2026 OUTLOOK

- **Caribbean**
  - Continued recovery of Haiti operations, as per the second half of 2025
  - Growth driven by Jamaica, Guyana and Barbados – Product mix leading to lower margins
- **Africa**
  - Continued improvement of retail margins and volume
  - Growing volume in bitumen in all geographies, South Africa in particular
- **Europe**
  - Launch of bitumen operations – high volume growth with lower margins
  - Slow erosion of growth in the LPG business
  - Acceleration of renewable electricity development

GUIDANCE

- EBITDA €740-790m

ASSUMPTIONS

- Constant EUR/USD exchange rate *i.e.* 1.13
- Hyperinflation:
  - 2026 accounting effect = 2025 accounting effect

04
